#### **DETAILED ACTION**

#### Information Disclosure Statement

1. The Information Disclosure Statement filed on March 19, 2004 is acknowledged.

### Oath/Declaration

2. The declaration filed on June 28, 2004 is acceptable.

#### Claim Rejections - 35 USC § 112

- 3. The following is a quotation of the second paragraph of 35 U.S.C. 112:
  - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 4. Claims 4 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitations "a leg portion attached to each primary lens" (claim 4, line 2) are inaccurate because the leg portion is pivotally attached to the primary extension, but not to the lens as discloses in the specification, page 8, lines 1-2. The phrase "the primary magnets" (claim 7, lines 13, 16) has no antecedent basis.

#### Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.
- 6. Claims 1-5,7 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by Kim (6,698,881).

Art Unit: 2873

The limitations in claims 1-5,7 are shown in Kim's Figs. 1-8, columns 3-6. Kim discloses an eyewear system comprising: a primary lens assembly 50 comprising: a primary frame 51 for retaining a pair of primary lenses 52; a pair of primary magnets 61 attached to the primary frame; an auxiliary lens assembly 20 comprising: an auxiliary frame 3 for retaining a pair of auxiliary lenses 3; a pair of first magnetic members 11; a pair of second magnetic members 12; and, whereas the primary magnets magnetically engage the first magnetic members when the auxiliary lenses are substantially aligned with the primary lenses; and, whereas the primary magnets are magnetically engagable with the second magnetic members when the auxiliary frame is rotated upward.

## Claim Rejections - 35 USC § 103

- 7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 8. Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Kim in view of Salk (6,280,029).

Kim discloses the claimed invention as discussed above, except for the plastic sleeve for optionally preventing undesirable wear of the surface of the primary frame as claimed. Using plastic sleeve for preventing undesirable wear of the surface of the primary frame when attaching an auxiliary eyeglass frame to a primary eyeglass frame is a commonly knowledge in the art such taught by Salk, for example. Therefore it would have been obvious to a person having ordinary skill in this art to modify the Kim's invention in light of Salk's teachings by forming a plastic

Art Unit: 2873

sleeve located on the auxiliary extension as commonly knowledge in the art for preventing undesirable wear of the surface of the primary frame as taught by Salk.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huy Mai whose telephone number is (571) 272-2334. The examiner can normally be reached on M-F (8:00 a.m.-4:30 p.m.).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Y. Epps can be reached on (571) 272-2328. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (571) 272-1562.
